General description	
Part number	MR-PINS2-10
Part name	2 inch pins for MR06, MR07, MR08, includes 10 pair of pins

FLIR's new insulated pins are smaller in diameter—requiring minimal force to drive the pins into a surface-resulting in less impact to the material. The sandblasted, hardened-steel pins with a single-piece design prevent bending and create an improved bonding surface for the abrasion-resistant insulation. The insulation extends all the way to the connection to the probe, so even if you drive the pins all the way into the wall cavity, the drywall will not affect the measurement.

- Fits FLIR's hammer, wall cavity and combo probes.
- Unibody construction rather than two piece.
- Smaller-diameter pins.
- Sandblasted hardened steel.
- Insulated with abrasion-resistant coating.

Replacement pin set for FLIR MR06, MR07, and MR08.
